

Spares and Replacement Parts

SPARES AND REPLACEMENT PARTS

Spiro-Gills Products Ltd offers a full range of spares/replacement parts for all Process and Engine Cooler Systems supplied by Spiro-Gills and other manufacturers. With an extensive archive dating back from the mid 1960s, we can identify and supply spares for most enquiries on a quick turnaround. Many products are held in stock at our Stafford facility and can be supplied for next day delivery. Spiro-Gills can also offer complete fan upgrades for both Process and Engine Coolers. Off-site Re-Tubing of Process Cooler Bundles with rapid turnaround times – minimising critical shutdown periods – is a speciality. Whatever your requirement, please feel free to call us in the first instance for expert advice.

Bearing Sets

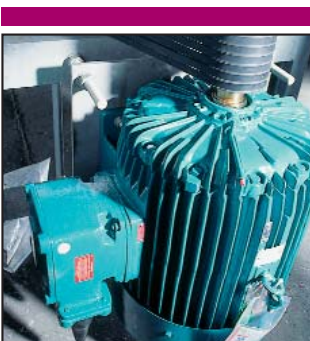

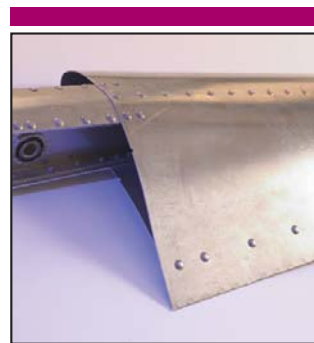

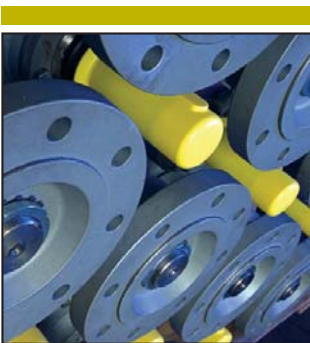

Spiro-Gills Products Ltd holds drawings for all types of Bearing Sets and Drive Shafts for Process Coolers and can supply complete Bearing Sets or their Component Parts (Shafts, Seal Kits or Internal Bearings). New Bearing Set solutions are available for Coolers with parts that may now be obsolete, thus reducing the need to replace complete Fan assemblies. Bearing Sets can be supplied in one offs or multiple supply dependent on the size of the project involved.

Fans and Fan Rings

Spiro-Gills Products Ltd offer replacement Fans and Fan Ring assemblies, or their component parts (Fan Blades, Motors, Drive Gear or Bearings). For both Process and Engine Cooler systems.

Louvers

Spiro-Gills Products Ltd can offer replacement, additional or upgrade louver controlled airflow for all previously supplied Process Coolers either manufactured by Spiro-Gills Ltd or other suppliers, these Louvers come with an option of being made in Aluminum or steel and come with pneumatic, hydraulic electric or manual operation.

■ Tube Supports

Spiro-Gills Products Ltd holds in stock a full range of Tube Supports and Half Boxes in Aluminum, Galvanized Steel and Brass to suit all tube diameters/pitches/fin types.

■ Header Plugs

Spiro-Gills Products Ltd offer replacement header plugs for all process cooler applications, many common size and material combinations are held in stock and are available for immediate despatch should a breakdown situation arise. Other less common types can be manufactured in our in house machine shop.

■ Gaskets

Spiro-Gills Products Ltd offer a full range of Gaskets for all Process and Engine cooler systems including:

- Spiral wound Gaskets
- Soft Iron/Stainless Steel Header Plug Gaskets
- Klingsil and Novus Supra Gaskets for Oil, Water and Engine Coolers
- Ring Joint Gaskets
